Re: Andaman range of coz I love trekking and I have some nice time with family and friends. Hi poperasu, Its really great trip to Andaman. You can visit KOLKATA-NORTH, about 1.5 hrs from there is Kolkata National park. You can enjoy the nature in here. Remember you can see a lot of nature at a small cost. I hope you can enjoy a lot of trekking and nature. If you have any question feel free. I want to tell that you take courage for travelling and enjoy your journey in Andaman. You will reach there in the dreamland. Re: Andaman range of coz I love trekking and I have some nice time with family and friends. Hi poperasu, Its really great trip to Andaman. [@Niebergall_2009], α has been adjusted according to the conductance of the sample. In general, a high-resistance sample will have high α , while in this paper a low-resistance sample is chosen. The temperature of this sample is as low as 78K, which makes it suitable for thermal noise measurements (with the lowest amplifier noise). Although some room-temperature measurements have been made, we present only the data obtained with this low-temperature sample.
