Its most notable features are: It has a very intuitive, friendly interface with a huge.Q: Not displaying options in select I have two select boxes and a table. When a user click a specific data from the table it will populate the second select box. The problem is when the user clicks the first row for the first time the second select box is populated, but when he clicks the second row, the second select box doesn't change and doesn't display any option. I'm not sure if I'm missing something. I've been searching the answer for a long time but couldn't find anything. I have this code: \$(".populate-select").on('click', function(event) { event.preventDefault(); var url = \$(this).data("url"); console.log(url); \$.get(url, function(response) { console.log(response); 2d92ce491b
