By using this app you will get more latest features. latest features and bug fix in this app.Q: EF entity property that is of another entity type I'm using EF 6. I have a Parent entity and inside I have a Child entity. I want to add a property to the Child entity that is of Parent. The tricky part is that I want to access the property via the Child entity but I also want to get the Parent entity to associate the Child entity with the Parent. Basically I'm asking if I can access a property from another entity type that doesn't exist in the same entity type. public class Parent{ public int SomeProperty {get;set;} } public class Child{ public int SomeOtherProperty {get;set;} // How can I access the SomeProperty on the Parent entity via the Child? } A: You should make a property with reference to Parent in Child class (get/set) and set it's values in some event like OnProperyChanged. If you will not set it's value EF would not know that the property belongs to Parent class. Something like: public class Child { // property with reference to Parent public Parent Parent {get; set;} // other properties public void Foo() { // load parent from db Parent p = new Parent(); // set values of Parent in Child p.Name = "Foo"; // or do it some other way } public event PropertyChangedEventHandler PropertyChanged; // handle PropertyChangedEvent here } Thomson Santamaria Thomson Barnad Santamaria (born 7 March 2000) is an Equatoguinean professional footballer who plays as a centre-back for Altaichin F.C. in the Equatoguinean Premier League.
