Jan 16, 2022 - Hard disk 8 GB free space; USB license; 2 GB RAM; also USB port. Information about the software: Name: . Eventually, after several years of working "on the desk," by the end of 2010, one of the book's main ideas, about how to make yourself understood and loved without being a writer, was ready. In 2011, the book was published and saw the light of day. In 2012 a documentary film, Nanolove, was made on the book. In 2013 the book "Nanolubov" was recognized as the best textbook for students in physics at the competition "My Country - My Russia". The winner's diploma was presented to the author in November in Moscow.
