AutoCAD Free [March-2022]

History The current version of AutoCAD is AutoCAD 2020. AutoCAD 2020, released on April 24, 2011, was the first version of AutoCAD to be released on Windows Vista. This version also introduced a new application installer. A previous version of AutoCAD was AutoCAD LT. AutoCAD LT was released in 1997 and was based on AutoCAD Revit. Related products AutoCAD Map 3D was the first 3D modeling package by AutoDesk. It was originally developed by New Forms Software, a company that was later acquired by Autodesk. AutoCAD/Map 3D is a family of applications and components which can be used to model and visualize 3D graphics, as well as design and analyze buildings, urban and transportation areas. The most recent version of AutoCAD Map 3D is AutoCAD Map 3D 2015. It is part of the AutoCAD Architecture, AutoCAD Electrical and AutoCAD Civil 3D product lines. AutoCAD Map 3D was later renamed as AutoCAD Map and then 3D, and features were added, including support for general-purpose graphics. AutoCAD Map 2D was developed by Graphisoft. AutoCAD Map was originally released in 1998, with AutoCAD Map 2D following in 1999. AutoCAD Map 3D followed in 2004, with AutoCAD Map 2D arriving in 2006. AutoCAD Map 2D was subsequently renamed and relaunched in 2006 as AutoCAD Map 3D, with AutoCAD Map 2D renamed to AutoCAD Map. AutoCAD Map 3D comes as a stand-alone product or as a component to other AutoCAD products. It can be used as a modeling package or as a drafting tool for 2D and 3D graphics. AutoCAD Map 3D was redesigned for AutoCAD 2015 and as of this writing is not supported for use with AutoCAD 2016. AutoCAD Map Architect was the first of the AutoCAD Map 3D family, intended for AutoCAD users who did not already have the functionality of AutoCAD Map 2D. It was marketed to AutoCAD users who wished to create or modify 2D graphics using 3D graphics, such as building floor plans and mapping. It was offered in three editions: Standard Edition, Professional Edition and Professional a1d647c40b
